Minimum Price Put
Establish a basis contract and protect against price declines.

Minimum Price Call
Stay in the market with the comfort of full price protection.

Deferred Delivery
Sell when the markets are strong and deliver later.

MarketTracker Market Order
Take the long view of the futures market.

Futures First
Lock in the futures today, establish the basis later.

Grain Pricing Order
Let this helpful tool monitor local markets for you.

ProPricing
Managed contracts eliminate the stress of tracking markets and deciding how and when to sell your grain.

Pacer
Bring home a guaranteed average of the daily futures closing value.

Daily Floor Plus
Price daily at a market plus price with the protection of a floor.

Premium Offer
Enhanced price today with a contingent offer for the same quantity the market is at or above a set price in the futures.

MarketTracker Working Order
Track market highs while avoiding downside risk.

Fixed Basis
Lock in the basis today, apply the future later.

Focal Point
Price now and stay in the market to express your bias.

Pacer Ultra
Our Ultra price averaging strategy avoids market lows and captures market highs.
